AMENDMENT

Sir:

In response to the Office Action mailed August 1, 2001, please amend the above-
identified application as follows:

Please amend claim 5 to read as follows:

01
5. (Amended) A method of treating a mammal prophylactically to prevent neoplastic
development, comprising administering to said mammal a therapeutic vaccine containing venom
and/or mammalian, plant or insect phospholipase A2 enzymes or part thereof as the principal
antigen component.

REMARKS

Claims 1-124 remain herein. Claims 1-4, 6-42, 45 and 48-124 have been withdrawn from
consideration by the U.S. Patent and Trademark Office.

Attached hereto as page 10, pursuant to Rule 1.121(c)(1)(ii), is a marked-up version of
the amended claim.

In an alleged eighty-three way restriction requirement, and a multi-faceted election of
species requirement, the U.S. Patent and Trademark Office has divided the subject matter of the
